

ABOUT US

Formed in 1967, we are members of the Morris Ring, a national association of Morris clubs, and perform dances mostly from the Cotswolds area.

- The origin of these dances is lost in the mists of time - no doubt fertility rites, superstition, and alcohol have all played their parts over the years.
- We take our colours and our 'Fishes' symbol from the Bournemouth Coat of Arms. The fishes are only presented to the wearer when he attains proficiency in the dances.
- The horse brass on the front is of individual choice and where possible was to do with one's trade or profession (this of course is becoming increasingly improbable as few men now work in the traditional countryside occupations).

We are supporting a new women's side in the Bournemouth area, dancing Cotswold Morris. Please contact us, or check out our website for more information.
